Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Claim Rejections - 35 USC § 112

Claims 1-16 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. ***The claim(s) must be in one sentence form only.*** Note the format of the claims in the patent(s) cited.

Where "sharp" occurs in the claims, shape is evidently intended.

The claim ***following*** claim 14 is also numbered claim 14.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4-7, 9, 11-13, 15, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. Application 2002/0175158 (US'158).

Referring to Figs. 1-7 and the full specification, US'158 discloses the invention exactly as claimed, including a filling container 22, a "heating component and heating wire" 32, 34, a centrally placed temperature monitor 62, programmable control means 46 with a circuit board 48, a switch 80, and four temperature indicator lights 68a-d, an LCD display 64, and a container cover 28.

Claim Rejections - 35 USC § 103

Claims 3, 8, 10, and 14 (the 1st of the claims numbered "14") are rejected under 35 U.S.C. 103(a) as being unpatentable over US'158.

The claims differ from US'158 only in calling for a cover which can be sealed by a rotating motion. However, these closure means do not patentably distinguish the claimed invention from the prior art because such have long been conventional in the art. The Examiner himself has enjoyed the advantage of such closure means for rather a long while. Hence it would have been obvious to utilize rotating cover seal means to avoid spilling the container contents.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph M Pelham whose telephone number is 703-308-1709. The examiner can normally be reached on M-F 7:30 AM to 4:00 PM.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
